

Light Movers

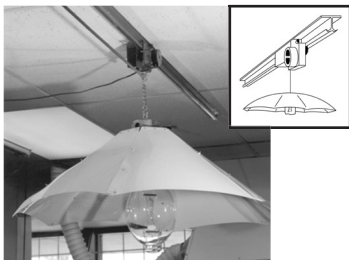

If you need help determining the light spectrum, intensity or lamp orientation in your grow room, take advantage of Homegrown's FREE personal design consultation!

An efficient way to use high intensity lights is to have them moving within the grow room. Linear and circular light movers help with lamp efficiency. Moving lamps cover more area than stationary ones, reducing electricity costs and ensuring more even growth. More intensity also allows plants to be placed much closer together, greatly increasing yield and quality. The size and shape of your room will determine the type of light mover that will suit you.

We carry all types of approved linear and circular light movers!

Light Movers

SUN TWIST W/2 arms	\$515.99
SUN TWIST optional 2 arms PKG.	\$65.00
Protrac II	\$248.00
PROTRAC I METER	\$230.00
PRO BAR 10" EXTENSION	\$65.00
PRO BAR 5" EXTENSION	\$55.00
LIGHT RAIL 3.5 INTELLI DRIVE.....	\$299.59
LIGHT RAIL 6" EXTENSION.....	\$45.00
ADD A LAMP KIT WITH ROD AND RAIL.....	\$127.00
ROBOB STICK FOR LIGHT RAIL	\$35.95

Advantages of using Light Movers

- More even growth over a larger area
- Lamps may be placed closer to crop
- Stronger plant stems
- Counteract leaf shading
- Circular movers can move up to 3 lamps
- 1 or 2 meter linear track support single lamp's extension kits are used for additional lamps
- Use air-cooled reflectors when heat build-up is a problem

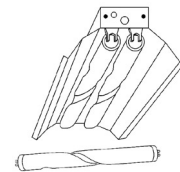

Light Hardware

MOGUL SOCKET/BASE	\$14.00
MEDIUM BASE MOGUL SOCKET	\$9.00
CHASE NIPPLE 1/2"	\$0.99
STRESS RELIEF CONNECTOR.....	\$0.60
OCTAGON BOX/COVER/HOOK	\$5.00
OCTAGON BOX	\$3.25
EYE HOOK	\$0.50
GROUNDING CORD/PLUG 8" 16/3	\$5.00
GROUNDING CORD/PLUG 8" 14/3	\$8.00
LAMP CORD 16/3 SJTW 12"	\$6.00
LAMP CORD 14/3 SJTW 12"	\$10.00
REFLECTOR BRACKET	\$12.00
CENTER PIECE FOR REFLECTOR	\$10.00
SASH CHAIN/FT	\$0.55
BALLAST BOX SMALL	\$30.00
BALLAST BOX LARGE	\$40.00
MH 400/1000 WATT CAPACITOR.....	\$52.00
HPS 400 WATT CAPACITOR.....	\$62.00
HPS 1000 WATT CAPACITOR	\$88.00
STARTER / IGNITOR.....	\$48.00
HPS 400 / 1000 WATT CAPACITOR.....	\$88.00
HPS 400 WATT CAPACITOR	\$88.00
HPS 600 WATT CAPACITOR	\$88.00
HPS 1000 WATT CAPACITOR	\$88.00
240 VOLT 8" PLUG CORD	\$9.00
240 VOLT DUPLEX RECEPTACLE	\$15.60

Fluorescent Lamps

Fluorescents are ideal for propagation of seeds and cuttings and early vegetative growth.

We recommend one actinic spectrum to give you the daylight spectrum with the extra blue for stimulation of root initials.

VERILUX TRUBLOOM 24"	\$17.10
VERILUX TRUBLOOM 48"	\$23.95
SYLVANIA GRO LUX	\$29.99
UV-B TL40 GERMICIDAL BULB.....	\$107.00
AGROSUN FLOURESCENT TUBE 24"	\$21.95
AGROSUN FLOURESCENT TUBE 48"	\$23.95
FLOURESCENT 2 BANK FIXTURE 24"	\$49.99
FLOURESCENT 2 BANK FIXTURE 48"	\$51.95
SINGLE BANK 48" FIXTURE.....	\$39.00
FLOURESCENT 24" LIGHT STICK	\$20.00
FLOURESCENT 48" WITH CORD.....	\$35.00
LAMP CLAMP NOMA METAL	\$19.95
ACTINIC TL/03 48" 40 WATT.....	\$27.50
REPTILE BASKING LIGHT R40	\$38.90
REPTILE BASKING LIGHT R30	\$33.00
REPTILE BASKING LIGHT R20	\$24.00

Reflective Material

- ▶ Mylar reflects with up to 95% efficiency when tacked flat against walls (wavy or loose mylar will decrease reflective ability)
- ▶ White plastic sheeting reflects with 90-93% efficiency and can be used to construct portable walls, and is waterproof
- ▶ Black plastic sheeting is used on the outside of portable walls to ensure they are opaque. The air block between the two types of plastic will also provide insulation
- ▶ Black and White layflat plastic sheeting can be used to cover growing surface to eliminate algae and creates a separate root zone environment

MYLAR 2ML. REGULAR 54"/FT.....	\$1.50
MYLAR 5ML. HEAVY 50"/FT.....	\$2.80
MYLAR 2ML. REG. 54"x25' ROLL.....	\$37.50
MYLAR 2ML. REG. 54"x50' ROLL.....	\$75.00
MYLAR 2ML. REG. 54"x100' ROLL.....	\$128.50
MYLAR 5ML. REG. 50"x100' ROLL.....	\$237.80
WHITE PLASTIC 10'/FT.....	\$00.99
BLACK PLASTIC 10'/FT.....	\$1.20
BLACK/WHITE LAYFLAT 10'/FT.....	\$1.20
BLACK/WHITE LAYFLAT 10"x100' ROLL..	\$112.00
WHITE PLASTIC 10"x150' ROLL.....	\$140.00
BLACK PLASTIC 10"x150' ROLL.....	\$160.00
